# ABOUT US

The purpose of our Center is to design and organize educational programs required by the information society, apart from associate, undergraduate, and graduate programs of our university.

With the rapid changes in business life, the necessity of acquiring information about new concepts and topics almost every day and applying this knowledge in a competitive environment has emerged. Continuous education carried out through individual effort forms the basis of competence, effectiveness, and productivity.

All programs offered by our Center are prepared by our academic staff with sectoral experience, adopting an approach that aims to combine theory and practice. At the end of the training programs, participants are awarded certificates.

We invite all individuals who wish to gain a competitive advantage to participate in the training programs of our Center, whose philosophy is expressed with the words: “Education is meaningful only if it is continuous.” All training programs offered by our Center are accessible to everyone regardless of ethnicity, religion, disability, migration status, or gender.

“Learn everything about something, and something about everything.”

— Van Dyke

## Mission & Vision

To provide education that creates high value for individuals, institutions, and society by identifying continuously changing human resource needs in the sector and integrating them with the requirements of the age and the conditions of the society we live in; and to contribute to the formation of a qualified workforce capable of advancing Türkiye and successful in human relations.

To be an educational institution that contributes to the country's qualified workforce through education and consultancy activities, trains the skilled labor force required by the market, and supports individuals' Lifelong Development process.

## Basic Expert Witness Training

The “Basic Expert Witness Training”, organized under the authorization of the Ministry of Justice, was conducted face-to-face at the Florya Campus. In line with high demand, a total of eight separate groups were opened in January, and the training program—each lasting 24 hours—was attended by 192 participants in total.

During the training, participants were provided with information on expert witnessing legislation, duties and responsibilities, and fundamental practical knowledge, and the program was successfully completed.

## Expert Witness Refresher Training

The “Expert Witness Refresher Training”, organized under the authorization of the Ministry of Justice, was conducted face-to-face at the Florya Campus. The training program, which was delivered in two groups opened in January and lasted 6 hours, was attended by a total of 48 participants.

Throughout the training, the aim was to refresh participants’ knowledge of the current legislation in the field of expert witnessing and to enhance their professional knowledge and competencies related to practical applications. The program was successfully completed.
